Nearly Bound, 20s.
Apply at the Daily Press Office.

ENGLISH AND CHINESE DICTIONARY.
WITH THE PUNTS AND MANDARIN PRONUNCIATION.
An Anglo-Chinese Dictionary published at the
Daily Press Office, Hongkong.
For completeness and practical service this
work stands unrivalled. All the new
words which the Chinese have of late years
borrowed from the English, and the numerous
objects in machinery, photography, telegraphy,
and in science generally, which the rapid advance
of foreign relations has imposed upon them, are
here given in Chinese, English, and French, and
fully illustrated and explained, forming a volume
for students of a most instructive nature. Both
the Chinese and Punt's pronunciations are given,
the accents being carefully marked on the best
principles of the Chinese language. The typography
displays the success of an attempt to make the
Chinese and English type correspond in the size
of body, thereby effecting a vast economy of
space, and a manuscript not previously
attained, and disposing of those vast margins
and vacant spaces which have heretofore
characterized Chinese publications.
To illustrate the vast scope of the work, the
following Chinese are submitted for consideration:
Chalmers' Vocabulary contains about 16,000
Chinese characters, and Medhurst's English and
Chinese Dictionary about 100,000, whilst
this work contains more than 20,000 English
words, and upwards of 60,000 Chinese charac-
ters. Again, despite all the grammars and
other elementary works as yet published, the
student of this difficult language absolutely re-
quires examples to display the various applica-
tions and equivalents of different words which
have a general meaning. Of these examples
this work contains more than five times as
many as any other Dictionary hitherto pub-
lished.
For practical purposes the arrangement of
the work is so complete, that a reference to its
pages enables a person conversant with English
to communicate fluently with natives who
understand nothing but Chinese. In this respect
the work will be found indispensable to all
European residents in China, and to the natives
who are employed in the various applications
and equivalents of different words which
have a general meaning. Of these examples
this work contains more than five times as
many as any other Dictionary hitherto pub-
lished.
